Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 12, 19-29, and 31-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maymon (#5,582,464) in view of Preston (#2,520,563).

Maymon discloses a seating device comprising a base (10), means (60) for supporting an upper body of a person and connected to the base, and a seating surface (40) not connected to the means for supporting. However, Maymon does not show a driving means connected to the base. Preston teaches a bed frame (29) having driving means assembly (see Figure 3) and a base (11). The driving means assembly allows for the bed frame to move in a periodic, continuous and cyclical movement in two directions. It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate Preston's driving means assembly to the base of

Maymon's seat device, in order to allow the seating surface to move in a periodic, continuous and cyclical movement in two directions.

Response to Arguments

The examiner has reviewed and considered the applicant's comments in the Response, filed on March 23, 2005. Based on another reconsideration, this Office action is considered to be Non-final.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Walter, Kvalheim, Larson, Schaevitz, and Serber are cited as showing similar types of seating device.
